

Grove Academy

Senior Phase : Progression Routes and Pathways

2022/23

Subject Choice for session 2022-23

This booklet provides information on progression routes and pathways for pupils as they move through the Senior Phase (S4-6) and beyond. More detailed information on Individual courses and qualifications can be found in the full course choice booklet which can be found on the school website.

There are a range of qualifications available for pupils at Grove Academy. Some of these are delivered as a result of arrangements made between Dundee City Council and Dundee & Angus College. In addition, some subjects, mainly at Advanced Higher are provided through the City-wide campus virtual campus. Others are provided via partnerships we have established with other organisations, for example the SFA. During the Senior Phase pupils may be studying in various combinations in school, at college, at Dundee University or in the workplace.

Pupils in S4-6 have the opportunity to take wide range of qualifications ranging from National 3/4/5, Highers, Advanced Highers, National Progression Awards (NPAs), National Certificates (NCs), Higher National Certificates (HNCs), Foundation Apprenticeships and industry standard certifications. How these different qualifications relate to each other can be found in the Scottish Certification and Qualification Framework (Appendix 2)

This year we are also please to add two HNC options for pupils in S6 as a result of a new partnership with Al-Maktoum College of Higher Education in Dundee. These two options (HNC Leadership & Management and HNC Business) offer opportunities that both support enhanced entry directly to a wide range of degree courses and offer experience of study for S6 pupils in a Higher Education environment.

We are also building on the success of our innovative Advanced Engineering Programme by introducing two new options – the Advanced Community Events and Performance Programme and the Advanced Community Music Technology and Sound Production Programme. Both will be delivered on a similar project-based model which evaluations have indicated very positive feedback from employers and universities.

Progression and Breadth

One of the factors worth considering carefully when deciding on subjects for S4 will be implications for progression into S5-6. Appendix 1 contains examples of progression routes from S4 and then into S5 to S6. Please note that these can change due to issues such as staffing and the level of provision by partners through the Senior Phase agreement between Dundee City Council and D&A College.

These illustrate some of the main routes and pathways for pupils though there is a degree of flexibility dependant on the nature of the subject and qualifications already obtained. For example, pupils in S6 may opt to ‘crash’ a Higher in a subject they have previously not studied. This decision should be taken after discussion with the relevant Head of Department. It may also be possible for pupils to take more than one option in a particular pathway dependant on the course choice form.

Pupil choices may also be influenced by the breadth of subjects they choose. For example, a pupil may opt for an IT related course in S6 to develop IT related skills and understanding to complement

their preferred pathway. There may also be certain combinations that may be appropriate for a particular career route (please see appendix 3 for some illustrations of possible combinations)

Thinking ahead and planning prior to subject choice.

As part of subject choice preparations students at Grove should consider longer-term plans or implications of their subject choices. For example, if a student has not settled on a career pathway then it may be more appropriate to maintain a balanced range of subjects. On the other hand, if such a pathway has already been identified, a very specific combination of subjects may be more appropriate. However, if career plans change significantly then students may find progression routes and pathways can potentially be constrained by earlier choices.

Please use the Thinking Ahead sheets (Appendix 4) to consider possible pathways for your child particularly if they are preparing for their subject choices prior to the deadline for the return of the subject choice forms. The information on subject pathways can be found in Appendix 1.

The My World of Work website also contains useful information that can be found via the following link;

<https://www.myworldofwork.co.uk/>

Courses provided through the City-Wide D&A Senior Phase program.

Information on the subject choice process, including deadlines, for session 2022-23 can be found on the school website. A number of options on offer to pupils have been arranged in line with the city-wide Senior Phase agreement with Dundee & Angus College. (Information on the courses on offer via the link with Dundee & Angus College can be found in appendix 5).

Transport to the relevant venue only is provided by the local authority for any pupils opting for any of the courses provided through the city-wide D&A Senior Phase program. These courses have been integrated with school timetables across Dundee to enable their provision and avoid pupils being extracted from other subjects.

To offer the widest range of subjects and levels we also offer some options as part of consortia agreements with other Dundee Schools and have also developed some courses through our own links with employers and specific college departments. This has enabled a wider range of choices, with greater relevance for pupils than would otherwise be possible given constraints on our staffing.

Courses provided through the Dundee City Wide Campus or Tayside Virtual Campus.

As in previous years we provide some Advance Higher options via the Dundee Advance Higher Campus or the Tayside wide Virtual Campus. There are also other Advanced Higher options that we can provide within our expected staffing allocation for next year and also some of the city-wide Campus Advanced Highers are delivered in Grove Academy. In addition, there are some Advanced Higher options that will be delivered via a Tayside wide Virtual campus. The final range of options will be co-ordinated by Dundee City Council. The current planned provision is as follows (please note this may change due to staffing).

City Wide Advanced Higher Campus

English, Accountancy, Geography

Tayside Virtual Advanced Higher Campus

Business Management, Computing, Modern Studies, PE, Spanish

Why might my child not get all their choices?

Although we will be able to meet the subject requests from the vast majority of pupils, there may be situations when your child does not get their full range of choices. This can be down to a number of factors such as;

- Lack of subject uptake which means the class is not viable.
- There may be too many pupil's choosing a subject given the number of classes we can staff. If this situation arises the relevant Head of Department will be consulted on final class lists.
- School staffing may not allow, or limit the scope for, providing some subjects.
- There may be a clash between two subjects that are only available in the same slot on the school timetable.

As in previous years, we require all pupils to make a reserve choice. If we cannot meet the requests for all a child's subjects, we will use the reserve choice. Your child's Guidance Teacher will re-interview your child if it has not been possible to allocate this reserve or if more than 1 request cannot be met.

There are also a limited number of places for the Personal Development options, given the nature of these courses. If there are more pupils who wish to take these options than there are places, then pupils may have to undergo a selection process in order to participate.

Key deadlines

S3 into S4

Initial information posted on website	w/b 10 th January 2022
Distribution of Subject Choice Forms	Friday 14 th January 2022
Distribution of Progression Pathways booklet	Friday 14 th January 2022
S3 Reports	w/b 24 th January 2022
Parents Night	Wednesday 26 th January 2022
Deadline for return of forms	Friday 4 th February 2022

S4 into S5

Initial information posted on website	w/b 10 th January 2022
Distribution of Subject Choice Forms	Monday 24 th January 2022
Distribution of Progression Pathways booklet	Monday 24 th January 2022
S4 Reports	w/b 7 th February 2022
Deadline for return of forms	Friday 18 th February 2022

S5 into s6

Initial information posted on website	w/b 10 th January 2022
Distribution of Subject Choice Forms	Wednesday 16 th February 2022
Distribution of Progression Pathways booklet	Wednesday 16 th February 2022
S5 Reports	w/b 21 st February 2022
Deadline for return of forms	Friday 4 th March 2022
