## 1 Literacy and Numeracy

### 1.1 Literacy

The percentage of pupils achieving literacy at or above SCQF levels 3,4 and 5 . Session 2017/18, stages S4 (based on S4), S5 (based on S5) and S6 based on S6

Literacy

### 1.2 Numeracy

The percentage of pupils achieving numeracy at or above SCQF levels 3, 4 and 5 . Session 2017/18, stages S4 (based on S4), S5 (based on S5) and S6 based on S6

Numeracy

### 1.3 Literacy and Numeracy Comments

Use filters to drill down and interrogate data
eg Gender, SIMD, LAC, EAL

## Literacy

At S4, Level 3 Literacy has fallen due to an increased number of school refusers, and for the first time in 5 years is lagging behind the VC. Literacy at both Levels 4 and 5 is ahead of the VC. Level 5 Literacy is at its highest level for 5 years at $79.28 \%$. At level 3 and 4 there was scant difference between the genders. At Level 5 girls were ahead of boys, although the latter had their highest result in five years.
In the most deprived $30 \%$, Literacy figures are down at all Levels, so we need to address this through targeted support. In the least deprived $30 \%$ literacy at Levels 4 and 5 are ahead of the VC.

At S 5 , Level 3 is slightly below the VC, whereas Level 4 is slightly above, but both figures are in the high 90 's. Level 5 has fallen below the VC for the first time. Girls performed better than boys. Literacy at Level 6 (not shown) has reached its highest level in 5 years and is ahead of the VC. Boys scored $69.31 \%$, the highest ever, although females were well ahead on $81 \%$ In the most deprived $30 \%$ Level 5 is above the VC, whilst Level 4 is slightly below.

At S6, Level 3 is on a par with the VC at 99.31\%, and at Level 4 slightly below the VC at $98.62 \%$. Level 5 is at $98.62 \%$ ahead of the VC. Gender-wise, boys achieved $100 \%$ at all three levels, whilst females were slightly below $100 \%$ in all three levels.

## Numeracy

In S4, level 3 and level 5 are above the VC. Level 5 Numeracy is now at its highest point in 5 years at $65 \%$ and is ahead of the VC, due to a push in insuring more pupils had achieved N5 Numeracy. Oddly, Level 4 Numeracy has fallen, although girls outperformed boys by $84 \%$ to $81 \%$. At Level 5 despite having the highest Level in 5 years and above the VC, Boys were outperformed by girls $63 \%$ by $67 \%$. In the least deprived $30 \%$, Level and Level 5 are ahead of the VC. In the most deprived $30 \%$ Level 5 is up to its highest in five years (37.5\%)
In S5, level 4 Numeracy has improved slightly but is still below the VC. Girls outperformed boys by 4\%. At Level 5 , Numeracy is at its highest level for 5 years ( $81.99 \%$ ) for both males and females, who performed equally well, and pips the VC. In the $30 \%$ most deprived, Level 4 and 5 are both up and well above the VC. Level 5 has jumped from $41 \%$ to $87 \%$ in this category. In the middle $40 \%$ Level 5 is up and ahead of the VC. Again this is due to clearer targeting of pupils. Level 6 Numeracy (not shown) is on a five year negative trend and reflects the falling number of pupils achieving Higher Maths. Here girls lagged well behind the boys.
At S6, there has been a slight fall in Level 3 Numeracy, as with Level 4, and both lag slightly behind the VC. Level 5 at 91\% matches the VC and is at its highest level for 5 years. Males reached $90.48 \%$ at level 5 Numeracy - the highest ever, but were pipped by the VC and by the girls by $1 \%$.
Numeracy is slowly improving thanks to the actions of the Numeracy teacher and the targeting of all pupils to achieve N4 or N5 Numeracy across the board.

## 2 Improving Attainment for All

2.1 Average Complementary tariff points. Stage S4, based on S4.

2.2 Average Complementary tariff points. Stage S5, based on S5.

|  | Lowest 20\% | Middle 60\% | Highest 20\% |
| :--- | :---: | :---: | :---: |
| Grove Academy | 288 | 727 | 1000 |
| Virtual Comparator | 276 | 719 | 997 |
| Dundee City | 169 | 538 | 933 |
| National | 192 | 595 | 964 |

### 2.3 Average Complementary tariff points. Stage S6, based on S6.

### 2.4 Tariff Comments

Use filters to drill down and interrogate data
eg Gender, SIMD, LAC, EAL
In S4, figures for Lowest $20 \%$ were disappointing and down from 174 last year. Despite this, they performed above the VC, DCC and National figures, which are also down. The middle $60 \%$ performed well. In both categories, females outperformed males. The Highest $20 \%$ could have performed better, although boys and girls fared equally well. ASN pupils could have been better supported in all three categories.

In S5 performance in all three categories was above the VC, DCC and National figures and up on 2017 and the best of the last 5 years. Males fared better than females in the lowest $20 \%$ and the middle $60 \%$, but it was the contrary in the highest $20 \%$ (The opposite of S4). ASN pupils were well ahead of the VC, DCC and National figures in all three categories.

In S6 performance from a lacklustre year group, particularly in the middle $60 \%$, was down, although the lowest and highest $20 \%$ were ahead of the VC, DCC and National figures. In the lowest $20 \%$ and the middle $60 \%$ females outperformed males, by almost 100 and 150 points, but the males outshone the girls in the highest $20 \%$ by 1448 to 1413 ASN pupils in the highest $20 \%$ scored 224 points above the VC. Figures do not include valuable DSYW courses like Life Guarding and other non SQA courses, part of our tailored curriculum for pupils in the Senior Phase.

## 3 Attainment versus Deprivation

3.1 Average Complementary tariff by SIMD decile. Stage S4, based on S4

|  | SIMD Decile | $\mathbf{1}$ | $\mathbf{2}$ | $\mathbf{3}$ | $\mathbf{4}$ | $\mathbf{5}$ | $\mathbf{6}$ | $\mathbf{7}$ | $\mathbf{8}$ | $\mathbf{9}$ | $\mathbf{1 0}$ | na |
| :--- | :--- | ---: | ---: | ---: | ---: | ---: | ---: | ---: | ---: | ---: | ---: | ---: | ---: | ---: | ---: | ---: |
| Grove | \# pupils | 13 | 12 | 15 | 11 | 3 | $\mathbf{2}$ | 27 | 30 | 59 | 50 | 0 |
| Academy | Avg Tariff Pts | 208 | 219 | 254 | 328 | 410 | 271 | 303 | 289 | 349 | 362 | 0 |
| Virtual Comp | Avg Tariff Pts | 207 | 282 | 240 | 285 | 331 | 344 | 313 | 325 | 343 | 358 | 0 |

3.2 Average Complementary tariff by SIMD decile. Stage S5, based on S5

### 3.3 Average Complementary tariff by SIMD decile. Stage S6, based on S6

### 3.4 Closing the Attainment Gap

Please outline your school's progress in reducing the poverty related attainment gap

In both S4 and S5 it would seem we are narrowing the attainment gap, particularly in S5, although the 6 pupils in Decile 1 did not perform as required. During their learning journey from S4-6 we track and monitor pupils attainment on 9 occasions, three times per year. Tracking information is shared with parents and after each tracking period, Guidance, then House Heads and after the Prelims, the HT interviews those pupils causing concern. Guidance staff/DHTs also meet with parents look at ways of jointly supporting young people to achieve their own aspirations. This has been seen to be effective. Staff have been provided with information throughout the school on pupils' prior attainment (MidYIS, SOSCA, S3 CfE Levels), SIMD, LAC, FME, ASN details. Pupils with Able plans are also identified. Staff are exhorted to know their pupils and support them accordingly. This is provided on a one-stop Powerpoint which has hyperlinks to all data required. All departments are developing their Tracking and Monitoring systems for the BGE.

Study support is offered in all departments and is readily taken up at all levels. An Easter school also proved very popular and was oversubscribed.

Improved quality of teaching and learning, with more differentiation has also helped, as has the breadth of curriculum offered. A wider set of options with a freer course choice has resulted in pupils doing subjects they enjoy. There is still
the problem of Maths, where pupils underperform. A high number of pupils gaining 4 Highers failed Higher Maths or were being presented for N5 Maths. Changes to the department should have positive impacts in the next few years on whole school data.

Other developments which will reduce the poverty related attainment gap: Mixed ability teaching in all subjects including Maths and English in S1 and S2, small groups teaching in Numeracy for catch up through the Numeracy teacher, establishment of a Nurture base, intervention of the Family Liaison officer, and the AIMS worker for S1-S3 mental health issues.

In S5, in most deciles, pupils' performance against the VC reflected roughly their performance in S4, apart from deciles 3 and 4, which showed an improvement.

In S6, the under-performance of pupils in Deciles 9, 10 is partially due to unconditionalitis, and the lack of effort, as most of our No Awards in all levels of presentations fall into the top 30\%. The huge improvement in the Tariff points in Deciles 2,3 show how the tacking of pupils helped. This year 8 pupils as opposed to 25 last year achieved no award at all. Pupils in deciles 7 and 8 performed better than in S5 compared to the VC.

## 4 Leaver Initial Destinations

Please provide an update on your action plan from last session's senior phase attainment and achievement review (term 3) to address increasing positive initial destinations for school leavers; including steps to help leavers identified in the table below.

|  |  | Christmas Leavers |  |  | May Leavers |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Stage | Sept 2018 Census Roll | Total identified | Destination |  | Total identified | Destination |  |
| S4 |  |  | HE |  |  | HE |  |
|  |  |  | FE |  |  | FE |  |

### 5.4 Stage S6, based on S4

The Local Government Benchmarking Framework currently reports four measures of depth and breadth at local authority level.

- \% pupils achieving 5 or more awards at SCQF Level 5 or higher
- \% pupils in lowest $20 \%$ SIMD achieving 5 or more awards at SCQF Level 5 or higher
- \% pupils achieving 5 or more awards at SCQF Level 6 or higher
- \% pupils in lowest $20 \%$ SIMD achieving 5 or more awards at SCQF Level 6 or higher These are calculated as for Stage S6 based on S4 measures on Insight.

Results of these measures for your school are shown below.

Insight does not include a filter for the $20 \%$ most deprived SIMD so the results for the $30 \%$ most deprived areas are shown as a proxy.

|  | 2015 | 2016 | 2017 | 2018 |
| :---: | :---: | :---: | :---: | :---: |
| 5 or more awards at SCQF level 5 or better | 73\% | 71\% | 74\% | 67\% |
| 5 or more awards at SCQF level 5 or better, 30\% most deprived SIMD | 50\% | 57\% | 33\% | 45\% |
| 5 or more awards at SCQF level 6 or better | 47\% | 47\% | 42\% | 39\% |
| 5 or more awards at SCQF level 6 or better, 30\% most deprived SIMD | 22\% | 22\% | 8\% | 12\% |

## 6 Whole Course Summary

### 6.1 Stage S4, National 4

(Source: SQA Local Authority Electronic Statement of Results file, August 2018)

| Qualification Name | Number of Resulted Entries | Percentage of base cohort | Number of passes | \% passes |
| :---: | :---: | :---: | :---: | :---: |
| Administration and IT | 10 | 5 | 10 | 100\% |
