January 2019

Dear Parent/Guardian

Plumbing and Electrical Preparation Programs 2019-20- Information Evening

As part of our Senior Phase Curriculum we will again be offering to pupils moving into S4 options to choose vocational pathways. Opportunities are available for pupils interested in careers in plumbing or electrical trades. These two programs, the Electrical Preparation Pathway and the Plumbing Preparation Pathway are part of our subject choice options and offer the opportunity for progression at the end of S4 into employment, full time apprenticeships, full time college courses or Future Skills College. These pathways will enable pupils to take a mix of school based subjects and relevant vocational qualifications in the appropriate sectors.

If you would like to find out more in this career area we would like to invite you and your child to attend an information evening on Monday 28th January at 18:30 in Kingsway Campus, Dundee & Angus College. Information will be provided on the qualifications pupils can achieve, our expectations from participants and how this program will fit in with other school subjects. You will also get the opportunity to see the facilities and hear from staff from Dundee and Angus College.

On arrival you should report to the main reception at Kingsway Campus. I look forward to seeing you on Monday 28th January.

Please contact me at the school if you would like further information.

Yours sincerely

Mr A Creamer
Depute Head Teacher
